

Design Settings Recipes For Templates

The **Recipes** or **Styles** below will work with all of the Left Chest, Jacket Back and Cap standard design templates. These are basic recipes or styles and may be need to be adjusted according to the amounts of letters used in each line. You will need to move or kern the letters according to the amount of space you want between each letter or the style of the letter.

These settings are from the Tajima by Pulse Embroidery Software, other embroidery software with have different terms for their settings.

Contour is = to Edgerun or Edgewalk in other software. Perpendicular is = to Center Run or Center Walk in other software.

Woven Settings	Letter	Sew	Underlay	Inset	Underlay	Inset	Stitch	Underlay	Pullcomp	Text	Stitch	Stitch
	Height	Sequence	1 Type	Distance	2 Type	Distance	Length	Density	Setting	Width	Type	Density
