

# Custom Design or Logo Embroidery Grid

To Estimate Stitch Count for Quoting

To estimate stitch count for logos or designs: Lay the grid on top of the design and multiply the number of Squares that cover the design by 400 stitches. **Each square = 400 stitches**

**1 SQUARE INCH = 1600 STITCHES** (This also allows for underlay or tackdown stitches)

.25" letter = 150 stitches

1" letter = 600 stitches

.50" letter = 250 stitches

1.25" letter = 700 stitches

.75" letter = 400 stitches

Satin Stitch Borders are approximately 175 stitches per inch

Run Stitch Border = approx. 65 stitches per inch
